PROFILE

Linux and Windows Server Administrator with 3+ years managing production servers, bare-metal VMware environments, and multi-cloud platforms. Experienced in **Linux, Windows Server 2016, Active Directory, VMware ESXi/vCenter, Ansible, Python, and Bash scripting**. Hands-on with MSSQL, FileZilla, PuTTY, SSH, and Windows-based tooling alongside cloud infrastructure at enterprise scale. Currently pursuing M.S. in Artificial Intelligence at BTU Cottbus-Senftenberg.

EXPERIENCE

Ericsson

Lahore, Pakistan

Linux System Administrator

May 2022 – Jan 2025

- Managed VMware ESXi 6/7 and vCenter bare-metal infrastructure at Jazz data center including RAID, VM lifecycle, and HPE iLO remote access.
- Automated VM provisioning, OS configuration, and software deployments using Ansible Galaxy VMware modules and Python scripts.
- Performed cluster health checks using SNMP-based monitoring tools and built custom Python scripts for disk, CPU, and RAM monitoring.
- Deployed AWS EC2 and EKS infrastructure using Terraform and Ansible, replacing manual workflows and cutting provisioning time significantly.
- Configured network segmentation using VMware ESXi virtual switches and managed physical HPE server networking via switches.
- Worked with Evernex on-site to replace failed HPE server components through two hardware failure incidents with minimal downtime.
- Wrote Ansible playbooks and Bash automation scripts adopted by the team for recurring operational tasks.

Hello App Pvt. Ltd.

Remote, Singapore

Linux System Administrator

Jan 2020 – Jul 2022

- Administered Linux servers across **AWS, GCP, Azure, DigitalOcean, Vultr, and Linode** for 50+ applications at **99.9% uptime**.
- Automated server provisioning and application deployments using Bash and Python scripts, cutting setup time by **60%**.
- Deployed and managed 50+ production websites on WHM/cPanel, CloudPanel, and ISPConfig with SSL, DNS, and server configuration.
- Performed Linux security hardening including firewall rules, patch management, and incident response in production environments.
- Deployed scalable Python (Django/Flask) and WordPress applications with nginx load balancing and CDN across cloud providers.
- Integrated REST APIs and third-party services across platforms maintaining reliable cross-system data flows at scale.
- Wrote deployment runbooks and onboarding documentation used by new team members to get up to speed independently.

APKFuel

Remote

Founder & Developer

Mar 2018 – Oct 2024

- Deployed and managed cloud infrastructure across GCP, AWS, and Azure using CloudFront, S3, and custom automation scripts.
- Administered Linux servers independently handling all system administration, security, and maintenance tasks end-to-end.
- Built Python and Bash automation scripts for data collection, processing, and structured storage at scale.
- Configured and maintained web server stack including nginx, Apache, MySQL, and PHP across multiple environments.
- Implemented monitoring and alerting for server health, disk usage, and application performance across cloud environments.
- Handled SSL certificate management, domain configuration, and DNS setup across 10+ production domains.
- Scaled platform to **96K monthly users** and successfully exited the project for \$18K.

EDUCATION

M.S. Artificial Intelligence BTU Cottbus-Senftenberg, Germany

2025 – Present

B.S. Computer Science Information Technology University (ITU), Pakistan

2016 – 2021

TECHNICAL SKILLS

Linux & Systems	Linux • Bash • Shell Scripting • Package Management • User Management • Networking
Windows & AD	Windows Server 2016 • Active Directory • Group Policy • Hyper-V • Office 365 • WSUS • PuTTY • FileZilla
Virtualization	VMware ESXi/vCenter • HPE iLO • RAID • Docker • Kubernetes
IaC & Automation	Terraform • Ansible • Ansible Galaxy • Python • Bash • Jinja2
Cloud Platforms	AWS • GCP • Azure • DigitalOcean • Vultr • Linode
Web & Services	nginx • Apache • WHM/cPanel • CloudPanel • ISPConfig • SSL/TLS
Monitoring	Prometheus • Grafana • SNMP • ELK Stack • Alertmanager
Databases	MSSQL • PostgreSQL • MySQL • MongoDB

CERTIFICATIONS

CKA	Certified Kubernetes Administrator – Linux Foundation
LFCS	Linux Foundation Certified Sysadmin
AWS	Containerized Applications on AWS
Cisco	Ansible for Network Automation
